

Egg Box Treasure Chest

Medium to
Large Parrots

You Will Need:

Clean egg box (*not one which has had damaged eggs or egg residue inside*)

A selection of treats such as;

- Sisal rope offcut
 - Pine cone (sterilized)
 - Branch offcuts
 - Wooden chews
 - Leather chews
 - Shredded paper
 - Coconut fibre
 - Nuts
 - Chopped fruit
- Etc.*

Time Required: 5 Minutes

Take a clean egg box fill it with a variety of favourite and novel treats, close the lid and give it to your bird to play with. It's that simple!

Let your bird watch you assemble the box and contents to give him the idea of what is inside. If he is still slow to explore the box then why not leave the box open the first time you give it to him. This will give him the idea and the confidence to proceed.

If your bird has a favourite but dismantled toy then why not put parts of it in the box as an extra special treat. Also consider wrapping some of the treats in tissue paper to add a second surprise layer – how exciting is that?
